

Bragança workshop

Portugal, 04/03/19 - 08/03/19

- Main headquarter: Bragança
- Secondary branch: Mirandela

8600 students including 2600 Erasmus students
actual strategy against decreasing population

Big phase of innovation:

- 70 teachers were sent to Finland for training last year
- new buildings
- refurnishing

Primary goals of the workshop

1. review pitch of the 3 Designstem country scenarios
2. production of Designstem IO
3. testing and improvement of ready-made e-tools
4. optimization of scenarios and language
5. next steps and tasks for the project meeting in Frankfurt, Germany

Agenda

ipb facilities tour

Bragança Silk House

Where we mainly worked.

Old mill restructured to become
an educational centre

Mirandela ipb

Mirandela workshop

Making circles with music freeing our hands
(1st activity in Carlo's Drawing Class)

DesignSTEM

COA VALLEY

A wide-angle landscape photograph of a valley. In the foreground, a dark green grassy slope descends from the right. The middle ground features rolling hills with patches of green grass and brown soil, interspersed with small trees and shrubs. A river winds through the valley floor. The background shows more distant hills under a sky filled with large, grey, dramatic clouds, with some blue sky visible between them. The text 'COA VALLEY' is centered in the upper half of the image in a white, sans-serif font. A faint, semi-transparent version of the same text is visible in the center of the valley.

Museo do Coa

- Exhibition about Coa engravings
- Impressive architecture

Test of scenarios

- Students of Politecnico
- Scenario [Of bees and packaging](#)
- worked well
- [students' feedback](#)

Next steps - Production

- [Tracking of scenario](#)
- [Framework](#)
- [E-Tool](#)
- Scenario [Teacher's Guide](#)
- Scenario [Checklist](#)

Next steps - Administration

1. Reporting by 15/06 (timesheets)
2. [Test \(editor version\)](#) of the test form) and dissemination - any possible occasion
3. [Final event](#) (dissemination and testing)
4. Final international meeting: Frankfurt 27, 28/05
5. Evolution of DesignSTEM (2020)

[Merit final information](#) - summary of final tasks
